

Flash Health medicine delivery: show you care for your parents by refilling their medicine instantly

About this campaign

The message we want to deliver

Show that you care for your parents by refilling their medicine instantly with Flash Health.

The action

Get the medicine delivered to your door by Flash Health.

After action additions

After the medicine is delivered, show your audience that Flash Health remembers your parents' medicine routine, reminds you before it runs out and reorders with one tap, so your parents always get the right medicine without any hiccups.

Brief

Tell a real moment: you're at work and suddenly remember, or Amma calls to say her medicine is over and you forgot to refill it. You could wait another day, hunt for a pharmacy that has the right medicine and stand in a queue. Or you can open Flash Health and order Amma's medicine instantly, and a Flash Health rider brings it to the door. The tone is warm and a little funny, like Flash Health's own reels. Your parents are your world, and the app is the caregiver.

Instagram

Hook ideas

Be creative.

Must show shots

1. Ordering medicine on the Flash Health app
2. A Flash Health rider delivering the medicine
3. The app screen that remembers the medicine routine (reminder and one-tap reorder)
4. Finally, the Flash Health home page asking viewers to download the app

Call to action

> *“Download the Flash Health app now.”*

Restrictions

1. Never name or show the label of a prescription medicine: blur it or turn it away
2. Blur every prescription: patient name, doctor, NIC and phone number
3. No medical advice, dosages or “cure” claims. Point health questions to Flash Health’s SLMC-registered doctors
4. Only use delivery times, fees and offers from the brand brief. Don’t promise your own
5. Everyone on camera, especially parents and elders, must agree to appear. No filming in hospitals or clinics
6. Riders shown wearing helmets. Never film while riding
7. No AI generated content. Face must be visible
8. Tag @flashhealth.sl, mark it as a paid partnership and keep it live for at least 30 days
